Description

This module is equipped with one drawer in the height 6 (internal dimensions WxHxD: 418 x 89 x 314 mm), one drawer in the height 8 (internal dimensions WxHxD: 418 x 123 x 314 mm) and eight service case rails which can be alternatively equipped with four T-BOXXes or four Metal cases 320/321. A combination of cases and BOXXes is also possible. The service case rails have an integrated locking function, which prevents the Case and BOXXes from slipping out uncontrollably. In order to remove the Cases or BOXXes you have to slightly lift them, before withdrawal. The drawers can be flexibly subdivided with accessories such as inset boxes, small component trays or dividers and provide for even more clear arrangement and orderliness. Optional anti-rattle mats on the floor of the drawer prevents movement of the contents and absorbs noise.

We reserve the right to make changes in the interest of technical progress, as well as correcting printing errors and mistakes. Pictures are similar, decorative material not included. With the publication of this data sheet, previous editions lose their validity. Version: 29.02.2024
