Description

The L 16 ProClick tool bag offers stowage space and orderly arrangement for hand tools and consumables of all types. The open compartment provides an orderly location for your tape measure or even a small cordless screwdriver. 15 elastic loops - nine inside and six on the outside - provide orderly storage for additional tools, such as screwdrivers and spanners.

The tool bag teams up perfectly with the ProClick Holder on your tool belt. This means that you always have the right tool and consumable to hand, and this saves lots of time when you are working up a ladder. The tool bag can also be used as a flexible and intelligent storage system on the SR5 van racking, in the C-BOXX, the tool carriage or on the AutoAssistant.
